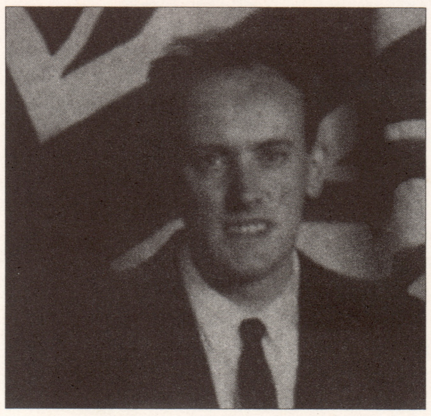
IMMIGRATION

LET THE PEOPLE DECIDE !



John McAuley, Prospective National Front Candidate in the Uxbridge by-election, has called on the *new* Labour government to hold a referendum on immigration and the resettlement of the ethnic minorities now living in Britain.

Speaking to 'The Flame', **John McAuley** said that it must be obvious to all, including the ethnic minorities, that the so-called '*multi-racial*' society has been a complete & disastrous failure. The time had now come for the people of the British Isles to decide whether this '*experiment*' should continue or whether there should be a complete halt to immigration and an extensive programme of resettlement.

Mr McAuley also said that he would be making the referendum issue the central platform of his campaign, since none of the other three major parties were prepared to voice the views and worry's of the people of Uxbridge on this most serious of social problems.

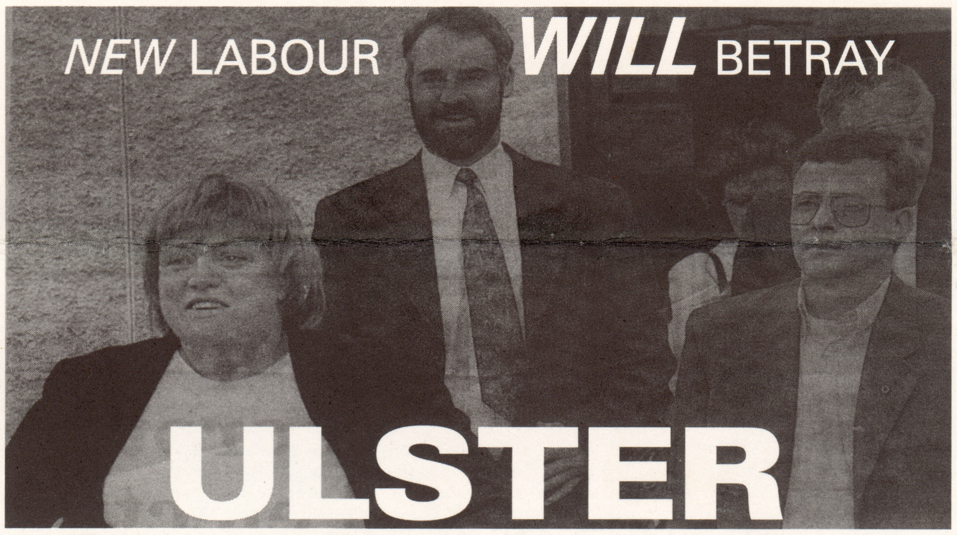
The other issues **John McAuley** will be highlighting;

Education - The, NF will ensure that ***all*** pupils are taught the 3R's, good discipline and true Christian values from the *highest standard* of teachers, not the politically correct trendy teachers/lecturers employed at the moment.

Law & Order - Progressive liberal laws have eroded the respect we used to have for British justice. Violence, vandalism, drugs and robbery, ***cannot*** be tolerated regardless of the circumstances. Inadequate sentencing has led to an increase in more violent crimes, like rape and murder. The only solution is the reintroduction of *capital punishment* for murderers, Violent rapists and drug barons.

Europe - Britain's membership has been a ***disaster***, the three main parties have one thing in common, they all want a Euro Super State, we would advise all our members and supporters to vote against Europe if *new* Labour hold a referendum as promised in its General Election manifesto.

NHS-When people fall ill, they need efficient health care. They do not need to be confronted by bed shortages, waiting lists or the prospect of hospitals closing. We will pump all money saved on foreign aid into saving our health service, we would abolish prescription charges and give ***nurses*** a decent wage.



'**Fat Mo**' leaves a meeting with convicted Republican terrorist and Garvaghy Road residents

The National Front believes the *New* Labour government is negotiating Ulster's betrayal. Secretary of State 'Fat Mo' Mowlam has already had discussions on banning certain Orange Order parades with Republicans and the Americans.

Tony Blair is offering Sinn Fein / IRA a place at the peace talks, if the IRA hold a crease fire for **only 6 bloody weeks**, and this without a complete decommissioning of Sinn Fein / IRA weapons, this they say would run along side any talks. This offer is open even after the murders of two RUC officers, Constables David Johnston and John Graham. Sinn Fein/IRA know they can do what they like, because New Labour will buckle under pressure from Dublin and President Clinton with former US Senator George Mitchell chairman of the negotiating team, putting forward a new document with an independent commission to oversee the handover of weapons.Add all this to the victories of Gerry Adams and Martin McGuinness at the General Election with the success of Sinn Fein/IRA in Northern Ireland's local elections where for the first time ever, the new mayor of Belfast is a Nationalist, all this does is give more ammunition to New Labour and its ultimate goal of betraying Ulster, firstly with Joint Administration from Dublin and the Americans, this of course only until the Nationalist population reaches a 51% majority then the whole of Northern Ireland will be handed over to Dublin, lock stock and barrel.This plan is being vigorously put forward by many Labour MP's, Ken Livingstone, Jerry Corbyn and Tony Benn, to name just a few.

The National Front is whole heartedly committed to the Loyalist struggle in Northern Ireland. We support many Parades, London, Glasgow, Southport as well as Belfast, where you will see our members selling our papers, we also oppose all marches on the mainland be it Troops out, Irish Freedom movement, etc., But we feel you the people must realise that you have to start looking forward and stop harping too much on the past,of course, celebrate, parade and remember your great achievements, the battle of the Somme when 1000s upon 1000s of Ulstermen died and July 12th 1690 when King Billy defeated the Catholic army, plus many more, but we are now in 1997, and before you can say **'King Billy'** Labour will have sold you out to Dublin.It's not all Labour /Sinn Fein's work either there are also some fringe loyalist political parties/ group's who need to take a long hard look at themselves as well, because they ideology runs parallel with the Marxist Sinn Fein/ IRA left wing ideology and we all know that route will lead you down the wrong road.That road ulimatey is DUBLIN, so we say tp them 'stop doing Sinn Fein/ IRA's work for them', remember the war will never be over until Sinn Fein/IRA are totally **eliminated**. The NF pledges that the security forces in Ulster would be given all necessary powers and that those sections of Northern Ireland's population whose sympathies lie with the Republic would be strongly encouraged to go and live there! Finally the NF gives its full support to all hard line Loyalist groups who are fighting for Ulster's freedom and would give an amnesty to all Loyalist political prisoners. **ULSTER IS BRITISH FOREVER - QUIS SEPARABIT.**

WHITE TOURIST-GANG RAPED IN RACIST ATTACK

An Austrian woman tourist here on holiday has been gang-raped, tortured and nearly murdered. The gang of four blacks a Colombian, a Greek Cypriot and two Filipinos abducted the 33 year old mother of two in Kings Cross, they dragged her to some grass near Regents Canal where they stripped her then began calling her a fucking white bitch while kicking and punching her, they then took in turns to rape her and force her to preform other degrading sex acts. Before they made of they stole her leather jacket and £50 cash. The tourist only managed to escape by tricking the gang into throwing her into the canal by claiming she could not swim. The gang of 14-17 year olds were caught after towpath security cameras filmed them with the tourist. At they trial the prosecutor John Bevan called the rape "an overtly racist attack."

EDITORIAL No 5

As many of you will know by now the National Front stood six candidates at the General election and polled quiet well, we would like to thank the Candidates, Agents, helpers and branches who put a lot of effort in, and made it a success for the NF. We aim to mark this by going all out and fighting every possible Parliamentary and Council by-election we can - in every part of the Country. Wherever it is we intend to be there, this is why we need men and women like you, who are prepared to be candidates. It won't be easy, we know that - would be candidates, should be aware that their names and addresses will be available to the opposition should they decide to stand. It takes a particular type of strong individual to stand under the name 'National Front.' Are you one of those strong individuals?

If you think you are and you are prepared to stand for election either local council, National, or European.then please telephone head office ASAP, to register your name, remember council by-elections are being called somewhere in the Country most weeks and most go completely un-noticed. We therefore need you to keep an eye open should one be announced in your locality. If you hear of one, again, telephone head office. We have local council elections next year in most areas, and we are very optimistic of getting some very good votes.

The Flame Editorial team, sends belated congratulates to the National Front on 30 years of resistance. 1967-1997, and are looking forward to the next Thirty. The Flame will be doing its bit to keep the name 'National Front' on everyone's lips. You can also help by subscribing to 'The Flame' or by taking bulk copies.NO SURRENDER

Is it just a coincidence that the media have gone crazy recently over the cases of Stephen Lawrence, The New Cross fire and many others? The Labour party, T. V. and National Press seem to be highlighting all incidents involving blacks as victims, with the innuendoes contained in their articles concerning the NF, do they hope to implant in the minds of the electorate, that the NF arein some way responsible. They will certainly continue to publish these articles, including many others. The Establishment are petrified at the support that right-wing parties in France, Germany and Austria are receiving. They are determined that the same situation will not occur here. So with this in mind all senior and ordinary members stay legal at all times. they will make up lies to entrap or smear you and the NF. Telephone HQ if you think someone might be an agent of the state or a red.

PROBLEMS AND POSSIBLE STRATEGIES

The five sections below are intended to be helpful, to offer some way forward, and to hopefully stimulate a debate between members and supporters.

1. The failure to secure participation in mainstream politics.

It has been very costly to the National Front, both in moral and money, many would argue however that we have gained publicity and to exist as a political party we must contest general elections, both of these are fair points, but the reality is we are a small fish in a pond that is getting bigger. The last few years has seen a plethora of what I call "one man and his dog parties." The Greens, UKIP, The Referendum Party, as well as other so called Nationalists. I believe this expansion actually suits the mainstream parties, for it effectively divides those disaffected voters and renders their choice worthless, moreover how long we must ask ourselves will it be before ethnic minority groups, for example Muslim fundamentalists start a strategic election campaign? (Indeed one could argue that they have been cleverer than us by doing this from within the mainstream parties.) They are in fact far more likely to get an election result as in many inner city areas the majority are for example cliqueish Muslims.

The *National Front* has of course adopted strategic voting itself, by not standing against other genuine nationalist groups, this is certainly a step forward. Further my suggestion is that we place more emphasis on local elections where we may gain a seat on a council. It would not for example take very much at all to gain the votes of the beleaguered white population in inner cities, and to unnerve those on the fringes of these areas that they are next in line for colonization, just when they thought they had found sanctuary from the mulit-racial chaos. Ultimately would it not be better to have an effective campaign around one strategically placed candidate in a local election, than half a dozen in the general election circus? With the media acting as ring master, and big business, the lion tamer?

2. How to gain youth support.

Patriotism is out of fashion especially with the young generation. Many have grown up under the influence of multiculturalism and it is fair to say that they do not even think of non whites as outsiders as did their forefathers. Furthermore they are probably more concerned with the latest pair of trainers, or computer soft ware than becoming political motivated. Those who do are likely to join a leftist organisation in a vain attempt to be radical, or to go against what is seen as the establishment. There is a way forward and that path is to point out that we are the **most radical anti establishment political party in Britain,** for example the establishment seeks to prevent our views from being heard, we are in disagreement with the three main parties, moreover we should point out that the so callled radical leftists are in truth run by people who are far closer to the establishment than we are, indeed groups such as the S.W.P play an important role for the establishment, in that they often are used as a rent a mob to disrupt those who are seen as a real threat I.E. NATIONALISTS. Further we seek to end the problems of unemployment, racial strife, the strangle hold of big business, we are ecologically friendly, in short we are far more than far right flag wavers, and old colonel types singing God save the Queen, yet I feel that this has not been put across strongly enough.

3. GAINING MASS SUPPORT

The potential white majority vote is a complicated issue, for example how would it be possible to reconcile the wishes of young voters, with those of middle Englanders. We constantly hear from the media commentators of disaffected Tories, our whole taxation system it would seem is based around pleasing a certain income bracket, politicians rant on about law and order, and family values, we are told of Essex man, and Worcester woman as playing a part in forming the next government. This is another media trick, in reality most of the British voting populace are at present far to interested in the next episode of Coronation Street, the National Lottery, and material gain, they are in fact not nearly as sophisticated as the media tries to make out. The only way that *National Front* ideology will affect them is if we show them the bleak future which awaits them under the present system of sham democracy. In effect we have to offer the *National Front* as the answer to a crisis that will not exist for some time, and what is this crisis? It is twofold, the merging of all financial institutions, starting with Europe in a few years time, and multi racial warfare. When the pound disappears as it surely will, what will the middle Englanders savings be worth? With our gold reserves somewhere in Germany we will be powerless to stabilize our monetary system. If the ECU becomes as worth say half the value of the pound it replaces, their savings, their jobs and heavily mortgaged houses will follow, still they could always sell them cheap to immigrants! you may think this a trifle far fetched but money markets collapse easily enough, the Tories have already had to withdraw from precursor of monetary union, with their planned tax cuts scuppered, and their image of a low taxation party finished, ironically handing a lead to (New) Labour who will surely take us into Europe post haste. For the racial problem see below.

4. Our opponents.

Socialists, Liberal humanitarians, and their doctrines of equality are our enemies, but they are not only our enemies alone. We must ask just what have these groups achieved since the turn of the century. Socialism, and liberalism with their policy of playing lady bountiful to the world have turned out not to be great liberating values, but rather gifts to the global market. The socialist have for example destroyed Britain's once proud unions, now most British workers have no rights (except of course all of those well paid socialist teachers) and have been condemned to a low wage long hour existence, FOR THE REST OF THEIR WORKING LIVES. This has been made worse by the economic migrants allowed in since the late forties, their surplus labour has worked wonders in keeping unemployment high, and wages low, after all why pay a Briton four pounds when an African will do it for two pounds an hour. The unions ironically have taken these migrants under their wing, so much for protecting jobs! Unemployment is now with us **forever** and let's be honest that's just what the establishment wants. Plenty of desperate people who are glad to do anything! To busy worrying over the mortgage to think about the situation as a whole. Further let's examine where the Equal Opportunity Act has got us, The honest hard working Briton is now equal with illiterate illegal immigrants from the four corners of the globe. Yes, you are now equal to the inhabitants of Brixton, Southall, Handsworth, Pakistan, Taiwan, etc. How wonderful now just how grateful are you to the liberals, socialists and internationalists? Do you see the lack of opportunities in housing and jobs, do you feel insecure, about to lose your house, fed up with crime, every product you seem to buy comes from overseas, and is in some cases made by child labour, well please do not blame the *National Front*! There is another argument which we must discuss.

4/b Ecology, it is simply impossible to keep expanding the housing stock, road building and out of town shopping centres. Further it is futile in the long term, why? Well let's be honest why for example are increasing numbers leaving city areas for the rural majesty of Norfolk? Could it be the fresh air, it certainly can't be all the high paid job opportunities. The answer is in many cases to escape racial chaos, but as stated earlier there will be no long term escape, given time Norfolk will succumb to multii culturalism. Already the softening up process has begun, ethnic dance groups and black "poets," are paying visits to schools in the area, spreading the coming gospel. The race counsellors have sprung up in Norwich, the infrastructure is being fitted in place. More houses are being built but for whom? Comparatively few people in this country can afford a new house, if one were to be cynical are they for the Hong Kong Chinese ?, Or refugees of a different sort, the reasonably affluent white classes from London. What this means of course is more overcrowding, more farmland being placed under concrete, along with various species of wildlife, and fauna, more roads, shopping centres, drive through McDonalds, and competition for the few jobs that do become available, and note those jobs which would follow on from the above developments are yes you guessed, low pay and long hours.

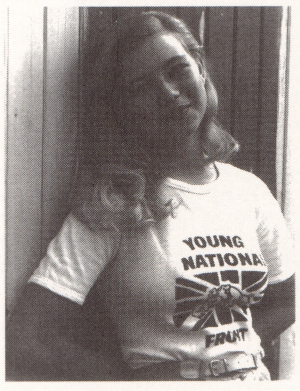
5. Propaganda.

What has preceded is primarily to illustrate where we may take our propaganda tactics? Indeed we are limited in discussing the racial issue, and going beyond those fairly recent immigrants to those who have dogged us for literally hundreds of years. But good propaganda points out bad propaganda, remember the sheep in "Animal Farm" taught to bleat out a repetitive chant of two legs bad, four legs good, in reference of overthrowing the farmer in Orwells novel? what does the whole race relations thing really represent, but the overthrow of white culture in a global sence, political correctness is the current victors, propaganda, class rooms of little kids across the land taught to hate their own history, and identity by a ruling elite who are in fact the minority. These new shepherds herding the white majority into an enclosure while the economic wolves of the free market, GATT, and EEC, look on. This is my point there is nothing to stop us spreading the terrifying future to as many as possible via the Internet, and printing material. Moreover we can move away from being seen just to "pick" on blacks, to defending white culture and freedom of thought. Showing how blacks are an integral part of the coming economic system is important and would get us away from the whole racial supremacy philosophy which ensures that we have no access to the media, they are in fact the foot soldiers even though they are ignorant of this themselves. For by smashing the racial consciousness of a people they show less resistance to the buy in culture of international big business.

There is a second factor which we may play upon.

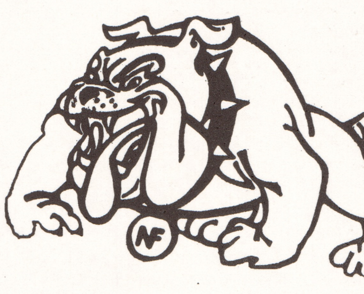
Black militants are increasingly vocal the outburst by the black Marxist Labour M.P Diane Abbot, this is just a glimpse behind the scenes, it also shows just how spiteful blacks are to whites in general, and this is where they will dig their own graves and hand us a lead in the propaganda war. As their numbers increase over the next twenty or so years to well over **ten million** it will be necessary for some form of white resistance to take place, just to ensure that whites are not persecuted. I believe that the *National Front* should push this idea, to the point of a future Britain in similar context to Bosnia. In-fact we should produce a sticker/leaflet with the slogan "Whites not wanted here says Black Labour M.P. Diane Abbott". Above all we must show that white people are the real victims of racial harassment be it mugging, or the Race Relations Act that has robbed us of **FREE SPEECH.**

As reported in the last issue of 'The Flame' the Young National Front has been re-activated, the YNF Chairman told 'The Flame' "He is very happy with the steady progress of the YNF" he went on to say "he hoped to hold a joint rally in the Midlands area in early Autumn for all enquiries the NF & YNF have had over the last few months".The YNF want to recruit all young White patriot's (boys & girls) whether you have skinhead haircuts, wear boots, have long hair or wear trainers, the only stipulations we have is your loyalty to Britain, the White race and the National Front. (We do not want, or need, anyone with aspirations for a failed 50 year old foreign power.) Contact the YNF, firstly by phoning 0181-289-1122. Your information will be passed on to the YNF Chairman.



The bulldog logo has for many years been used by the **NF**, firstly by the Young National Front on its magazine 'Bulldog' (still published by Home Counties North Branch) also on tee-shirts, like the one worn by the lovely young **NF** girl in the picture. The **NF** chose the Bulldog logo, because it represents all that's good in Britain, Patriotism Spirit, Courage, Honour and Strength, the same things the **NF** and **YNF** stand for. The Bulldog has nothing to do with New Labour or what they stand for, it was just a ploy to win the patriotic vote, like Margaret Thatcher did in 1979 with her in-famous "Swamped Speech." New Labour has already stolen our 'rose', which was first used by a **NF** candidate in a Sidcup ward by- election. We are determined that the Bulldog will remain a symbol of the National Front.

NEW LABOUR TRYS TO STEAL THE 'NATIONAL FRONTS' BULLDOG LOGO



RECRIMINATIONS AND ACCUSATIONS ABOUND.

It has long been suspected that when the foundations of the permissive society collapse those responsible would seek **scapegoats** on whom to place the blame for the general situation.

The outburst by the Chief Constable of Manchester, considered in some areas to be a member of the Establishment, was among the first to criticise this cess-pit of a society.

Everybody, particularly the silent majority, knows who is responsible for our plight - our illustrious politicians.

A fact always known by many but now known by all is that a multi-racial society is a **cess-pit** society. As long as we remain a multi-racial society we will continue to be a **cess-pit** society. Nothing can change this. It is a fact of life! The Establishment, aided and abetted by the media, are heaping the blame on certain sections of our society, among whom are the homosexuals and the drug-addicts.

But ask yourself who actively encouraged the growth of these poor unfortunates?

Only our politicians, and those voters who despite knowing their records continue to vote them back and throw into office.

It is a sad conclusion to make, but Britain is a **cess-pit** society and only a few have escaped the slime which is sucking us into a maelstrom of oblivion.

It is interesting to note an observation by Charles de Foucauld, who was the founder of the Little Brothers and Little Sisters of the Sacred Heart, regarding the Negro slaves living in Morocco during the latter part of the last century.

He stated that he had no illusions about them. They all lived, he said, without responsibility - **lying** and **stealing**, showing affection for none, and having the morals of **beasts**. Yet, typical of most Europeans, he had compassion for them, for he tried to ease their lot.

He observed that they were well treated in that they shared the life of the family, being well fed and enjoying considerable freedom - their greatest fear was to be set free, they regarded this as the ultimate punishment for it presented them with the problem of finding a livelihood.

It is interesting to compare these observations with that of Albert Schweitzer, the acknowledged expert on Negro behaviour, for he is recorded as saying 'Give them equality and they will bring you down to their level.'

Looking at the prevailing situating here in Britain today, who can deny this? Not even the most **rabid** Marxist.

During the past thirty years Britain has changed from a law abiding society to one where crime, drugs and violence have become an accepted way of life.

Responsibility for children's upbringing, particularly in inner city areas, has been transferred to the state. In every local authority throughout Britain, hundreds of children are kept 'in-care' unwanted by their natural parents.

In confirmation of the observations made by Charles de Foucauld and Albert Schweitzer the majority of these children are **half castes**.

Each day Britain as a civilised society teeters towards the brink of self destruction.

We must ask ourselves, 'Is this the Britain that our illustrious politicians have sought and striven for?'

Are **'YOU'** going to allow British society to fall into total oblivion or are **'YOU'** going to insist on the only sane solution available, ***'humane repatriation.'***

The 'silent Majority' are asking are there any politicians with the spunk to speak out for the British people. The **'true'** British people.

GENERAL ELECTION RESULTS

How the National Front fared

The National Front successfully contested six seats at the General Election.

Over the past two years the NF has totally re-organised itself, from top to bottom, we have rid ourselves of the old **inept**, and **childish** leadership, the **traitors** to Democratic Patriotic Nationalism have also gone to a more suitable home. This left the ***NEW* NF** leadership with the chance to put back into place the best aspects of the various strategies adopted by the NF so successfully in the late 70s and early 80s. Of course the NF of today is a very different party from then, but we still believe in telling the truth and will not hide behind watered down policies just to get an extra handful of votes, or to please the corrupt establishment, we believe in calling a '*spade a spade*', and that's why we stated in our General election leaflets; **STOP IMMIGRATION- START REPARATION!**

The results of some other so-called patriotic parties in the General election also proved to us, that watering down your policies and standing under a **bogus** name doesn't guarantee you a good vote, in-fact, for one very **small** *breakaway group* this was found to be **conclusive,** with total **humiliation**, party *fuhrer* Ian (what money) Anderson polled only **81** votes in Londonderry East, Southport **92** votes and **95** in Bermondsey, they were beaten by *The Natural Law Party* and *The Communist League,* while the NF was the centre of attaction for the media, and T.V., they all wanted interviews with the only true patrotic party- "that party still is"

THE NATIONAL FRONT.

The NF realised that its share of the vote was going to be squeezed, with so many parties and groups standing, spending vast amounts of money (Demoprats £25,000), but of greater importance to the NF was the level of recruitment of new members and the renewals of old members, this we achieved beyond our wildest dreams, it has generated an optimism in the NF that we have finally turned the corner of decline and once again will become the biggest and best patriotic party, a real force in politics.

Michael has been at the forefront in modernising the image of the National Front, which he feels has been very successful over the last few years. Michael said, 'I know the old NF of the 1970s and 80s was misrepresented, but today's National Front is made up of ordinary, pleasant people, and even our opponents have to acknowledge this FACT.' Only a vote for the National Front will secure the future of Bromley and Chislehurst.

Mr Williams
Mid Glamorgan.

Dear NF
Could you please tell me why the NF is not very well advertised in East London, I am quite sure that you would have a larger following if people knew how and where to contact you, I have recently become a member and proud to be associated with such a patriotic organization.
Keep up the fine work
Nick
East London.

Dear Sir
With the enclosed £10 could you send me two packs of stickers (any ones) and put the other £5 towards the Uxbridge by-election.
yours Peter
Middlesex.

Dear NF
Good luck in the Uxbridge By-Election,remember you've got nothing to 'lose', and everything to 'gain'. Griffin's 'party' have said they will beat the NF, which is expected as they are bigger, in terms of members and finances, but what if the NF beat them? Anderson has announced he is personally standing for the Demoprats,(lets hope so),then the NF can put yet another nail in his and the Demoprats coffin, as he will be lucky to beat the 81 votes he got in the General Election.
George
Glasgow.

Dear Sir,

The idea that our image is responsible for our disappointing results was dispelled forever when the M.O.R.I poll showed that Sir James Goldsmith's Referendum Party has only one half of a per cent support.

Sir James a multi millionaire and well known member of the establishment, has all the advantages of money, status and ability to mix in the right circles. Since the well announced launch of his party he has appeared in a T. V. Interview with Jonathan Dimbleby where he stated the anti E.C case admirably. Dimbleby lost every argument against Goldsmith armed with facts. The Referendum Party has placed full page notices in the daily papers on more than a couple of occasions and backed them up with a glossy brochure and video delivered to most households in the country. For all of this they receive such a small amount of support. This could be partly because they are a one issue party that does not intend to remain in business after the election.

It does however point to the fact that the British public have still not grasped the seriousness of the situation. Let us hope that history does not repeat itself and that the people do not remain in blissful ignorance, as they did in Russia just before the revolution.

The E.C. has already been of immense cost to us, not only financially but in loss of livelihoods, particularly among family businesses including fisherman and farmers. If the E.C. is allowed to progress any further numerous restrictions are planned to take away freedom from the individual, making it more like a police state, over which we would have no control.

If anyone is going to succeed it will be us and a Labour government should speed our progress. Everybody knows that the National Front has always opposed the common market long before Edward Heath signed the Treaty of Rome and that we have always opposed mass immigration the two problems are inseparable.

Is it not strange that our country's enemies have always implied that the National Front would create a police state, when in truth the National Front is the party that would prevent a police state.

Yours
Mr. B. Franklin.

Dear SiR.

We often hear how such groups as Friends of the Earth, the Greens and various others are supposed to care about our countryside, the environment and native Flora and Fauna. No Nationalist would disagree with these aims, indeed the National Front has the preservation of our country as its priority.

What these various groups of "do-gooders" fail to see, or do not want to see, is that conservation starts without own species. Our first priority as Racial Nationalist must be to ensure the survival of the White Race in our country and in all the White world. If we fail to do this everything is lost. Wherever in the world schemes are afoot to protect wild life and the environment it will be found that these are the work of peoples of European stock.

In the famine hit regions it is the European who gives food, money and labour how much have the oil rich Arab countries given? African dictators couldn't care less about their fellow Blacks. Without the help of Europe the death rate would be millions. Every week the people of Britain are exhorted by such people as Christian Aid and other so-called charities to give their hard earned money to some corrupt third world nation.

A few years ago the cry of preservation groups was "Save the Whale", again who would argue with this? To achieve a ban on the killing of Whales however needs the cooperation of all nations, We should look to matters nearer to home, in our own country, yes here in so-called animal loving Britain the most unspeakable horrors are being committed on domestic livestock! As we approach the twenty-first century a throwback to the Middle ages is still happening in our "green and pleasant land". The obscene practise of Ritual Slaughter is still being allowed in Gt. Britain. Jews and Moslems have imported their barbarous method of killing food animals, this is completely against the law of our land, yet in the name of an Alien religion they are allowed their will. If the people who campaign for the Whale and the Natterjack Toad put a fraction of their effort in campaigning against Ritual Slaughter we might see this banned. This has been raised in Parliament but always been defeated because all the old parties are ruled by the same people who pull the strings of Lib/Dems/Lab/Con!

The selling off of parts of our country forest lands is also taking place. This should not be allowed, this is our country, the country of the indigenous British peoples and must be left for our descendants to enjoy. It must not be sold off to get corrupt governments out of their current financial muddles. Conservation then must equate with National Front, the policies of the RSPCA, Greens, Ramblers and all the other conservation and animal protection groups are encompassed in the policies of the NF. People in the groups I have mentioned say these are not political issues, until these are made political issues nothing will ever be done.

Tom Holmes
Deputy Chairman,
National Front.
Member, RSPCA.

Dear NF:

Only by applying the following 'TEN' nation-saving improvements can we hope to recover the quality of life we once experienced here in Britain. If not etched in stone they must be etched in our hearts.

1. Restore family values. (Totalitarian forces encouraged by the three main political parties seek to undermine families and subvert the loyalties of children.)
2. Reinforce 'Law and Order.' The application of which is being deliberately undermined.
3. Restore 'Discipline' in schools.
4. Sweep out of the Judicial system all the cranks who favour criminals above victims.
5. Although present laws do not allow us to ban homosexuals and lesbians in public office we must promote the ban of known paedophiles.
6. Eliminate 'Positive discrimination' which makes second class citizens of white people.
7. Ban 'Asylum' seekers who seek only to exploit the welfare system.
8. Deport immediately those foreign nationals guilty of drug trafficking.
9. Restore our literary heritage deliberately changed by political correctness.
10. Reinstate the teaching of Christianity in schools - particularly The Ten Commandments.

Mr A.A.
Kent.

18 YEARS FOR REFUGEE RAPIST

An Asylum-seeking refugee was jailed for 18 years for the **rape** of two women one aged **76** and the other **84.**
Somalian Ali Noor who had been living in a council flat in Labour controlled Islington, was told by Judge Neil Denison: "It passes my comprehension how any human-being could deal with these two old ladies in the way you did", he also described it as " one of the worst cases I have ever had to deal with".

Noor came to Britain in 1989 claiming "asylum" and that he was fleeing "persecution," but by 1992 he was doing some persecuting of his own. In that year he stood accused of following a women off a train in Hertfordshire and raping her. As the police did a bodge job on DNA samples Noor got lucky, and instead of being thrown out of the country as should have happened, his case was thrown out of court instead.

Again, in 1995 in two separate incidents unrelated to his current sentence, he was first arrested outside a **70** year old's house after an indecent assault. He was given bail and five days later he broke into the home of a 20 year old Somalian girl and **raped** her too. These two incidents are to be left on file.

Wicked Noor was finally caught with enough evidence against him in London, just yards from where he had beaten and **raped** an **84** year old lady. Not only did DNA evidence prove his guilt but it also showed he was responsible for the rape of a **76** year old the year before. These were to be the two **rapes** he got his eighteen year sentence for.

Looking over Noor's past history one wonders how many women he has really attacked since he came to Britain eight years ago, how many women are too frightened or too embarrassed to report an attack by Noor to the police. Of course one can only guess at the real reason Noor came to Britain claiming "asylum" in the first place? He appears to be a habitual rapist and there's no reason to believe it only started when he arrived in Britain at 42 years old. It is not inconceivable that he has been carrying out his cowardly and evil deeds for many years. Could it possibly be that he came to Britain to escape the Somalian authorities after being wanted for **rape** there too?

Scum like Ali Noor may be able to pull the wool over the eyes of the government, but he'd never be able to do it to a ***National Front*** government.

SOUTHPORT PARADE

On Saturday 14th June 1997, the annual June Apprentice Boys of Derry parade from Liverpool to Southport took place. After forming up at their various clubs in Liverpool, just under 1000 Apprentice Boys led by flute and drum bands paraded through the districts of Liverpool and the city centre, before boarding buses which took them to Southport. The clubs and bands reformed up and the parade restarted at the side of the train station heading down Lord St. Several NF members who had travelled to the event where given the thumbs up by many of the parading members of the ABOD as they passed by.

When the parade reached Princess Park the ABOD disbanded until the afternoon, many of the Apprentice Boys and band members headed straight back to find the NF members and many copies of 'The Flame' and stand by loyal Ulster stickers were sold.

The Apprentice boys reformed again at 4.30 and paraded back from Princess Park to the train station, passing a new LPA banner which was greeted with cheers and applause from the bands and apprentice boys, Their buses were waiting to take the bands back to Liverpool.

The Minibuses carrying NF members made their way to a very enjoyable social in Liverpool which finished at midnight, then they had the long and tiring journey home, some not getting in until 6.00am.

NEW BRANCHES

We had hundreds of enquiries during the General election, with active members and supporters distributing literature all across the country. We are therefore asking readers to help organise and run a new branch or unit in their areas. We will offer all the support that we can. We are particularly interested to hear from people in Newcastle, Portsmouth, Scotland, North-West England, South-West England East London and Ulster.

LATEST RIOT SCORES:

SIKHS 1 MUSLIMS 0

A 60 strong mob of Sikh youths, thought to be from the Southall area, descended onto the Chalvey district of Slough (Berkshire), to sort out a few differences with their Muslim rivals. Arriving by car, the Sikh mob brandishing samurai swords and some dressed in black, rampaged through the streets smashing Muslim owned shops, cars and houses, as they were hurling rocks through Muslim homes they were heard shouting "PAKIS" which may came as a surprise to some, but if we assume that most Sikhs are from India and the Mulims come from Pakistan, it doesn't come as to much of a surpise for Asians to use the "P" word.

The few remaining white residents are obviously terrified that these two groups will use their area to carry on their inter-ethnic differences, and that any political unrest on the Indian subcontinent will escalate the problem. That is of course assuming there needs to be trouble "back home" before a resumption of violence as it is feared by everyone including the police that a revenge attack by Muslims will be carried out.

Of course, those of us who live in the real world know that you don't have to be white, to be racist, and the spectre of inter-Asian warfare on the streets of our Country is a terrifying one, a war that would ultimately drag in white, black and yellow. Is it any wonder that even during the General election campaign Blair, Pantsdown and Major didn't even want to bring up race and immigration as an issue, let alone discuss it.

Remember the NF in your will!

The National Front wishes all its members and supporters a long life, but none of us can live forever. The NF relies upon the generosity of its members, supporters and the general public for its funds.
You may not be able to help the National Front at present, but when making your will you can help with a bequest.

MAKING A WILL

There are four ways in which to make a bequest.

EITHER: A. Residuary Bequest is a share of your estate ***after*** all other bequests have been made and costs have been met.

OR: A. Reversionary Bequest which would enable the NF to benefit **after** other beneficiaries have been provided for during their lifetime.

OR: You can simply arrange for a fixed sum of money to be donated to the NF. This is called a **Pecuniary Bequest.**

OR: You can make a **Specific Bequest** of any identifiable assets e.g. house, land, stocks and shares, jewellery or any article of value.

When you make your will you give yourself peace of mind, knowing that you have helped keep the NF going after you have gone.

It is very important that you take professional advice. Like so many matters to do with the law there are certain mistakes which need to be avoided. If you consult a solicitor making a will is simple. You may qualify for help with the cost if your income is low.

We suggest you take along one of our Compliment Slips, Business cards or something with either our telephone number or PO Box number, to avoid any mistakes, where your bequest could end up in the wrong hands.

REMEMBER IF YOU DIE INTESTATE THE ONLY ONES TO BENEFIT WILL BE THE VERY ESTABLISHMENT THAT YOU'VE BEEN FIGHTING ALL YOUR LIFE.
